

## CDS-John Blue Corner

**Check out the NEW CDS-John Blue Web Site:** The web site has been completely redesigned. Included now are product photos on the home page, easier navigation, updated instruction manuals and numerous how-to videos. The complete product catalog is also available on the web site. The flow rate calculator is still a handy tool for you and your customers to calibrate their new and existing pumps. The new web site is also available in French, Portuguese, Russian and Spanish.

**Price Update:** Please note the new list price for part number 44021, \$149.00.

**Holiday Schedule:** CDS-John Blue Company will be closed December 24, 25 and January 1 for the holiday season. May you and yours have a safe and joyous holiday season, from your friends at CDS-John Blue Company. We look forward to working with you in 2014.

The American Society of Agricultural and Biological Engineers (ASABE) announced that CDS-John Blue Company has won an AE50 award.

CDS-John Blue Company developed the Electronic Liquid Blockage Monitor, deemed one of the year's most innovative designs in engineering products or systems for the food and agriculture industries. The Liquid Blockage Monitor will be featured in the January/February 2014 special **AE50 issue** of ASABE's magazine *Resource: Engineering & Technology for a Sustainable World*.

"Our goal at CDS-John Blue Company is to develop technology which can benefit our farmers to improve their crops and thus their profits. A grower wants to know immediately when they are not applying the correct amount of product; it is critical to proper management," said Jim Stubbs, CEO, CDS-John Blue Company.

Companies from around the world submit entries to the annual **AE50** competition and up to 50 of the best products are chosen by a panel of international engineering experts. The judges select products that will best advance engineering for the food and agriculture industries.

The **AE50 awards** program is sponsored by *Resource* to emphasize the role of new products and systems in bringing advanced technology to the marketplace. These engineering developments help farmers, food processors and equipment manufacturers cut costs, enhance quality and increase profits.

## Features of the CDS-John Blue LBMS

- Uses magnetic sensing technology mounted behind the VisaGage II Flow Monitors, illustrated at right.
- Sensors can be mounted to existing VisaGage II's, new magnetic balls are supplied with sensors.
- Identifies where magnetic balls are floating in each row during liquid application.
- Only LBMS shows both no-flow and low-flow. Plus the premium system displays high flow for broken lines.

# Liquid Blockage Monitor System (LBMS)

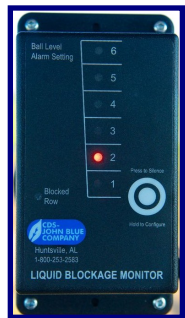

- See a visual display and hear an audible alarm on the control panel in your tractor cab.
- Can be used with cloudy or dark liquids—LED is visible to the column sides.
- Each row with a problem will be highlighted by a flashing LED light at the row. No need to remember or search for which row is blocked after you come to a stop.
- The alarm will reset automatically when the blockage has been corrected.
- Have the ability to “Pause” the system to capture problem rows for investigation later when you are able to stop.
- LBMS iPad® App is free and available from the Apple App Store.

## LBMS is Available in Two User-Friendly Options

**Premium System Wireless**  
(iPad 2 or newer display running iOS 6 or higher)

**BMi-08 -Premium 8 Row Kit includes:** iPad ram mounting bracket, input harness, 28 ft. extension harness, wireless sensor kit, standard sensor kit and 2 terminator plugs.

**Standard Control Panel (Wired)**

**BM-08AP Applicator 8 Row Kit Includes:** control panel with mount bracket, input harness, 28 ft. extension harness, tee harness, 2 standard sensor kits, 2 terminator plugs.

**BM-08PL Planter 8 Row Kit Includes:** control panel with mount bracket, input harness, 28 ft. extension harness, tee harness, 2 standard sensor kits, 2 terminator plugs, 2 -15 ft. extension harnesses.

**BMPT-001 4-Row Sensor Expansion Kit for all systems includes:** standard sensor, tee harness, magnet balls and hardware.

## CDS-John Blue Anniversaries

Congratulations to the following employees for reaching significant milestones at CDS-John Blue Company. We appreciate their hard work and dedication.

- |                     |          |
|---------------------|----------|
| • Stephanie Everett | 5 years  |
| • Gary Flannagan    | 25 years |
| • Fred Hough        | 45 years |
| • Christopher Love  | 5 years  |
| • Craig Mashburn    | 20 years |
| • Michael Poland    | 20 years |
